

Vol. 22.2

## ABOUT AEG

# ALWAYS AN IDEA AHEAD

We thrive upon innovation designed to give you the ultimate feeling of mastery in your home and laundry care. We see your needs of today. And foresee the ones of tomorrow. So that you can achieve results that don't just meet your standards, but exceed them.

We believe in intelligent technology and exceptional performance, helping you to take anything you do at home to the next level, every day. We are proud of our distinctive engineering and responsive design, guaranteeing you the performance you expect and deserve.

We are a brand that people turn to for intelligent and exciting new ways to guarantee their outcome. This has been our passion for over 125 years, and continues to be our passion today.

We are AEG.

And together with you, we are always an idea ahead.

## 130 YEARS OF INNOVATION

AEG is relentless in its pursuit of always being an idea ahead. In 2017 we are celebrating 130 years of bringing innovation into your home. Merging intelligent technology with responsive design by following the vision and design philosophy of AEG's Peter Behrens – perfection in form and function. We will continue innovating and are committed to carrying our legacy into the future.

## LOOKING BACK

AEG was founded as the Deutsche Edison-Gesellschaft für angewandte Elektrizität in 1883 by Emil Rathenau. A merger with subsidiary Telefunken AG and subsequent acquisitions by Daimler AG and finally Electrolux shaped AEG into the forward-thinking company it is now. Innovation is at the heart of everything we do at AEG. It is the driving force behind our best-known inventions for the home, from creating the first electric refrigerator to the first heat pump technology for tumble dryers. It is the inspiration behind our sustainable materials. It's our history and our future.

## LOOKING FORWARD

Tomorrow begins today. The way we eat will change. The way we dress will change. The way we live will change. We know how technology can enhance the world around us. That's why we make sure our appliances not only exceed your needs today, but also embrace tomorrow's technology to fit your future requirements.

# REFRIGERATION

Retractable lower shelf for flexible storage.

## Self-closing door

An elegant solution, with no risk of slamming. Automatically closes from an opening angle of 25–30 degrees.

High Efficiency LED lighting ensures a good spread of light, shining downwards in the fridge. An intelligent fan function prevents warm areas in the upper part of the fridge and creates an even temperature in all fridge levels.

## Display

Touch controls with new white LED digital display.

# Built-in Refrigeration

## INTEGRATED LONG FRESH FRIDGE SKK818E9ZC

### KEY FEATURES

The LongFresh feature is a zero degree compartment with adjustable temperature settings & separate humidity. To maintain the deep blushing crimson of a fillet of beef, to ensure the sweet freshness of a lobster tail, or to hold the ultimate flavour of fresh fruit they must be treated and chilled with precision. The two Zero Degree compartments in the AEG refrigerator allow you to choose and adjust the humidity and temperature settings in each drawer. Ensure that each element is at peak condition, by chilling them in unique conditions.

- Child-proof control panel protection
- Coolmatic
- Door open indicator
- 212 litre gross fridge capacity
- 200 litre net fridge capacity
- Auto fridge defrost
- Dynamic air technology
- Precision cooling system
- LongFresh zone
- Full width covered dairy compartment
- Door shelves
- Half width sliding door shelf
- Air purifier
- Hinge type: Fixed door on door
- Reversible door

STEAMCRISP

# WELCOME TO THE SMART KITCHEN

## Professional results. In your kitchen

Create professional-quality meals at home with the 9000 SteamPro Oven with Steamify®. Three cooking levels allow heating, steaming, or a combination of both. Even sous-vide is possible. Succulent results you can rely on, automatically set with Steamify®.

## EXCite+ TFT Display with Command Wheel.

### Precision cooking

With the EXCite+ TFT Display with Command Wheel you can precisely and easily control the oven heat, browse programmes, choose functions and even get oven software updates via WiFi. All at the twist of a dial and displayed on the digital screen.

## Automatically adjust steam with Steamify®

With the Steamify® function, set the desired temperature and the oven will adjust the steam level automatically. For healthier, tastier food. Steam cooking brings out the richest flavors and preserves nutrition. And with the Steamify® function, it's easy to do.

## Get closer to golden brown

You know when it's done just by looking at it. Of course you do. And with the CookView® camera from AEG you now have a remote way to check out the colour of every bake on your mobile.

### CONNECTED STEAMPRO MULTIFUNCTION SOUS VIDE OVEN

COMBINATION MICROWAVE COMPACT OVEN WITH COMMAND WHEEL

# COMPACT OVENS

The Combi Microwave Oven gives you the option to combine heating function and microwave mode together to achieve great taste in up to half the time with CombiQuick.

The touch sensitive Command Wheel gives you an intuitive way to operate all the cooking settings. It swiftly responds to your actions so that you always have control of every step of the cooking process.

Multifunction cooking combines all the benefits of hot air cooking with other functions, like conventional cooking, enabling you to achieve your desired result.

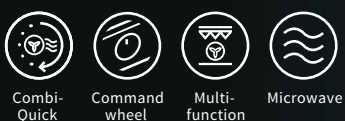

The pure microwave function gives you the option to re-heat, cook and defrost your dish.

COMBINATION MICROWAVE COMPACT OVEN WITH COMMAND WHEEL  
KMK96800M

- Electronic touch controls
- 43 litre oven capacity
- Diamond-glazed enamel interior
- Isofront® plus triple glazed door

- Fan air circulation
- Rotary control knob
- Variable temperature control
- On / off LED
- Anti-slip mat
- Temperature range (°C) 30-80

10 Induction Hobs

HOB HOOD INTEGRATED

## COMBOHOB

HOB HOOD INTEGRATED  
CCE84751FB

The ComboHob combines an Induction hob and an integrated hood into one single product. So you can place the hob wherever you want without having to install a hood above it giving you many creative options for individual kitchen design.

M2CKCF01 – Ducting kit for CCE84751FB

- Touch on glass slider control
- Dual zones
- LED Display
- Bridge function
- Automatic heat up
- Stop & Go
- Residual heat indicator
- Timer
- Pot sensors
- Child lock
- Recirculation maximum (ca.m3/h) 400
- Recirculation intensive (ca.m3/h) 420
- Noise (max. setting) recirculation (dB (A)) 71

## KEY FEATURES

**Easy Installation**

The unique 2in1 design of the ComboHob makes it possible to integrate it anywhere in the kitchen.

**Hob2Hood**

The AEG Hob2Hood adapts to your cooking to keep your kitchen free of steam and vapours without you even having to touch it

**Easy Cleaning and Maintenance**

This hobs glass surface makes it easy to clean. Easily access the aluminum grease filter to clean and effortlessly maintain the high-efficiency odor filter inside.

**Bridge Function**

The ComboHob can easily cope when you're cooking large amounts – or simply cooking with bigger pans. Just touch the Bridge button to link and control two cooking zones together as one big zone to fit any large or long pan. Sharing the same temperature and time setting, the linked zones are ideal when you're cooking for dinner parties or bigger celebrations.

COMFORTLIFT®

# LIFTS GENTLE TO A NEW LEVEL

The AEG ComfortLift® dishwasher is equipped with a special lower rack lifting mechanism, ensuring less bending when unloading the dishes to make your life more comfortable.

Fully Integrated A+++ energy rated 13 place setting ComfortLift dishwasher.

This ComfortLift dishwasher has a special lower rack lifting mechanism, making loading and unloading the dishwasher less of a chore.

TimeBeam: Keeps you informed on the progress of the programme by projecting the remaining time on the floor.

The ComfortRail drawer system on this model ensures your racks slide smoothly, even when fully loaded.

Achieve impeccable cleaning, whatever the load, with five spray levels, satellite spray arm and a third ceiling spray arm.

The XXL interior of this dishwasher gives you an additional 10litres of space, more capacity for those irregular shaped items.

# IMAGINE

---

Imagine putting your precious sweater in the washer. Imagine trusting a silk dress to a dryer.

We've not only imagined it, we've done it. Washed the black dress time after time. Dried a soft wool sweater over and over. Every time they emerge without shrinking or fading, still vibrant and soft. Because AEG has redefined what a washer and dryer are. Protectors of fabric. Defenders of colour. Guardians of fibres.

Unprecedented care for the life of your clothes.

IMAGINE THAT.

6000 SERIES

# MEET THE EVERYDAY QUALITY PRESERVER

- White door
- Woolmark Blue
- C/E rated

**Energy rating E**

**Cares twice as effectively**

Quality clothes are made to be worn, but everyday pieces need care to maintain their condition. In AEG 6000 Series washing machines, every load is measured to tailor each cycle and calculate just the right amount of water and energy the wash requires. Whether you wash one shirt or a full load, the washer will adjust accordingly, reducing wear and tear by taking the minimum amount of time necessary for a thorough clean. And reducing water, energy consumption and washing time for smaller loads. AEG washing machines keep clothes looking their best. Every wear, every wash.

Clothes that are exposed to too much heat and motion simply will not last. The ProSense® Technology in AEG tumble dryers uses temperature and humidity sensors to fine-tune the drying cycle every time, ensuring clothes are never over-dried. Whether you dry one shirt or a full load, the dryer will adjust accordingly to take the minimum time necessary. Reducing wear and tear. Protecting fabrics. Saving energy and time. Your everyday pieces are dried efficiently, monitored constantly and cared for cycle after cycle.

The advanced humidity sensors of PreciseDry help save time and energy. They proportionally adjust the time and energy usage based on the load size. Providing the right care to every load, so clothes look and feel their best for longer.

**Energy rating A++**

.....

# ENERGY INFORMATION

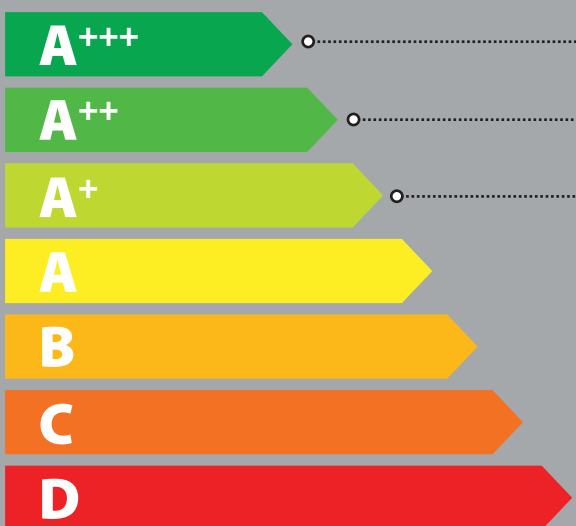

## CHANGES TO EUROPEAN EFFICIENCY SCALE

This scheme, which covers refrigerators, freezers, wine coolers, washing machines, washer dryers and dishwashers is designed to offer you a standardised method of choosing the most energy efficient appliances.

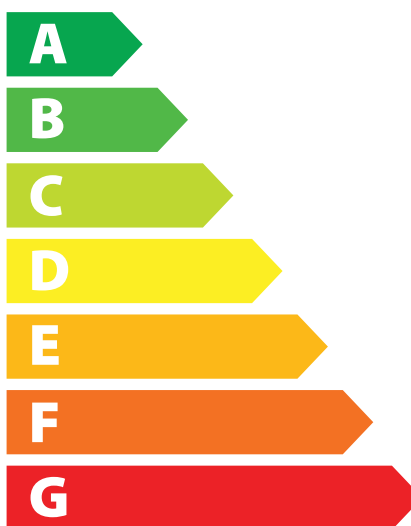

### Current label scale

Current energy classes have started to become obsolete, with most products innovating faster than the current label. The great majority of products sold are being clustered into energy classes higher than A, making it hard to differentiate between them.

### New label scale, A-G

With the new labelling, A+++ energy class will become D class after rescaling, without any change whatsoever in the energy consumption. This means that the appliances are still as energy efficient as they were previously, but follow a new classification, leaving room at the top of the scale as more efficient technologies emerge. For washer dryers, the new label will scale separately washing & drying, and washing.

### New performance icons

Airborne acoustical noise emissions rating scale, with A being the quietest.

A:  $n < 39$

B:  $39 \leq n < 45$

C:  $45 \leq n < 51$

D:  $51 \leq n$
